- This extends Kaidan's Daedric Quest (Blood and Fire)
- There is trigger warnings to be aware of which include: cursing, talk of Kaidan's past sex life and Kaidan yelling at the player
- Kaidan will go through a stage of not talking to the player or the fratpack
- The requirements to start this extended quest include: Complete Kaidan's personal quest (All of this Past), have taken him to Shadowgreen Cavern (and retrieved his sword), a minimum romance level of 60 (Kaidan has confessed his love for your player)
- This quest is followed by Absolution By Dragon Fire, these two quests will take about a in game week to complete
- It is recommended to have at least Vilkas, Farkas and Aela during this quest as they do have some dialogue with Kaidan and the player it is however recommended to leave other custom followers that Kaidan interacts with behind as his banter with them cannot be stopped therefore will be unimmersive
